Slogan Contest Continues Here

Who will have a day named in their honor in Cameron?

"The winner of the Cameron Slogan Contest, that's who," says the Cameron Chamber of Commerce.

In announcing a continuation of the slogan contest already underway, the Chamber will also honor the winning slogan writer with:

--A plaque bearing the winning slogan, the winner's name, to be awarded at the annual Cameron Chamber of Commerce banquet in March 1963.

--A $10 cash prize.

--Recognition through the news media, both radio and newspaper.

--Entries should be short, snappy and original for possible copyright and exclusive use by Cameron.

--Contestants should be residents of Milam County. No age limit.

--Contestants can enter as many slogans as they want.

--Entries should arouse pride in the City of Cameron and invite interest in the Milam County Seat.

The contest entries will be screened each week throughout the contest, Mrs. Smitherman said. Entries should be sent to the Chamber of Commerce; Cameron. A special slogan committee will review entries until a winner is announced.

Want to increase the income from your upcoming cotton crop A proven way to do this, says H. A. Turney, area extension entomologist, is to control insects. Hints Offered On Buying Hay

COLLEGE STATION — Visual inspection doesn't tell the story of what is inside a bale of hay. The true feeding value of hay is determined by several factors, points out Shannon Carpenter, area dairy specialist for the Texas Agricultural Extension Service, and challenges hay buyers to become 3T purchasers.

Carpenter explains the 3T formula this way. The first T is for test. If a ton of hay testing 4 percent crude protein is purchased, 300 pounds of cottonseed meal will have to be fed with it to make it equal the protein in a ton of hay testing 10 per cent protein. It's good business, says Carpenter, to ask the hay seller for an analysis on his product.

The second T is for time. Time the hay was cut. Time since fertilizer was last applied to the crop. Time since the last cutting and of major importance, time of season in respect to the time the hay will be fed. Ask some questions, advises Carpenter, and if the right answer isn't forthcoming, do some more shopping.

Carpenter's third T stands for ton, the usual weight basis on which hay is bought. One dollar for a 60 pound bale of hay equals $33 a ton, but a dollar for a 40 pound bale equals $50 per ton. The weight of the individual bale of hay thus is very important. Buy by weight instead of the bale.

The 3T hay buyer, concludes Carpenter, knows what he has bought and how much. A visit with the local county agent is suggested as a source for additional information on quality hay production as well as buying practices.

COTTON REPORT

Spot cotton prices were steady during the week with Middling quoted Thursday, April 19 at 33.50 cents in Dallas and Galveston, 33.25 cents in Houston and 33.00 cents in Lubbock, unchanged from a week ago. Prices a year ago were 31.25, 31.35, 31.50 and 31.00 cents, respectively. As the final date for loan entries approached, a fair volume of loan entries were reported. The demand for spot cotton continued very slow and selective.

Domestic mill demand was principally for fill - in needs. Buying was small in volume and confined largely to small lots of the medium White and Light Spotted grades in 15-16" - 1" staple of good character for prompt through July delivery.

Farming activities were in high gear throughout the area with mild, open weather prevailing. A few scattered showers were reported but no moisture of any material benefit fell. Most sections now need a period of warm, dry weather.

A large percent of the crop was up and some fields have been worked out. In central Texas planting as far north as Waco should be completed within the next week. In Central Texas planting as far north as Waco should be completed within the next week. Planters were active in East and North Texas with a few fields reported planted in the Abilene, Lubbock and Altus areas.

County Agents Notes

Plant Disease Insect Meeting

By J. D. Moore
Milam County Agent

Plant diseases and insect problems are not real clear to most laymen and the meeting to be held in Rockdale on April 30 is planned primarily for the purpose of helping growers better understand plant disease and insect problems.

Disease prevention is important. For example the disease Pecan Scab is caused by a fungus. This fungus invades the young rapidly growing shoots and leaves and later the developing pecans. Severely infected nuts on highly scab susceptible varieties fall or fail to develop, resulting in a crop loss.

The scab fungus overwinters in infected shoots and old shucks and leaves on the trees. In the spring when temperature and moisture conditions become favorable, the fungus begins to grow in the shoot lesions. The spores are spread by wind and rain to newly developed leaves where they germinate and invade the tender tissues, intiating primary infection.

A spray program is necessary to prevent this disease. Zineb at the rate of 2 lbs per 100 gallons of water should be applied now. The second application should be appli at the time the pecan tree is sprayed for the casebearer. Zineb is comparable with the insecticide and can be mixed in hte solution for worm control.

A third application should be applied 3 to 4 weeks following the worm spray and a fourth application 3 to 4 weeks later.

Growers of all crops, flowers, lawn grass, trees, etc., are encouraged to collect a plant or insect specimen for identification and control.

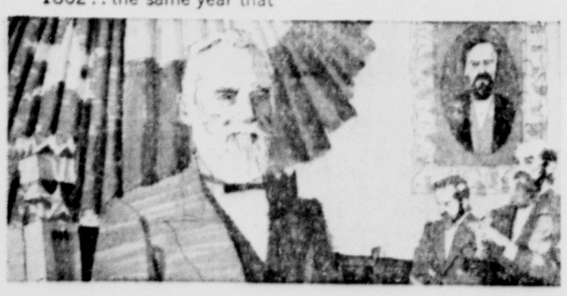
It happened 100 YEARS ago

The oldest incorporated trade association in the country, the United States Brewers Association, was organized in 1862 . . the same year that



IN TEXAS . . a new governor, Francis Richard Lubbock, guided a bankrupt state through that bitter Civil War year. Cotton, exported through Mexico, brought desperately needed foreign gold. Homefront industries were established. Comforts were few, but morale stayed high . . and there was good Texas beer, enjoyed then as now.

For then, as now, beer was the traditional beverage of moderation — light, sparkling refreshment that adds a touch of Southwestern hospitality to any occasion. Texans have always enjoyed the good fellowship that goes with every glass.

TODAY, in its centennial year, the United States Brewers Association still works constantly to assure maintenance of high standards of quality and propriety wherever beer and ale are served.

Cameronites On Washington Trip

World War I Veterans and members of their Ladies Auxiliary from throughout Texas have recently returned from a trip to Washington D. C.

The trip was to advise their congressmen of their need to increase pension benefits to WWI veterans and their widows. The group was headed by Com. Roger Q. Evans of Baird.

At an early breakfast on April 5, 15 members of Congress from Texas were guests of the delegation. That afternoon, they were entertained at a coffee hour arranged by Senator Ralph Yarborough in one of the larger committee rooms of the Senate Office Building.

Yarborough addressed the group and informed them in no uncertain terms that he was staunchly behind their program. He urged them not to become discouraged because, he said, the legislative party in Congress is a long and tortuous one and it takes sometimes years to accomplish one's goal. He indicated that he would be glad to support the legislation which has been introduced to aid World War I veterans and their widows.

Later the group convened in another committee room at the invitation of Vice President Lyndon B. Johnson. Unfortunately he was unable to be present but his representative expressed his regrets and said that Mr. Johnson would have been pleased to have discussed their problems with tme.

On April 6 the group was shown through the White Hohse on a specially - conducted tour and then proceeded to Arlington National Cemetery

Upon conclusion of this visit the visitors boarded their buses and journeyed to Mount Vernon where a wreath was also laid on the Tomb of George Washington.

On their way home they were the invited guests of McQueen - Rhea Barracks of Damascus, Va., at an early morning breakfast in Martha Washington Inn at Abingdon, Va. This feature of their trip was arranged by National Adjutant W. Glenn Elliott, who is a member of Damascus Barracks.

Those making the trip to Washington from Cameron were Mr. and Mrs. Homer Allen and Mr. and Mrs. Henry Dreyer.

TELEPHONE TALK

by C. L. Carson, Manager

POSTCARD SURVEY

Telephone customers in Cameron are being invited to "get it off their chest" in a unique service improvement program now being conducted by Southwestern Bell Telephone Company.

We have mailed a double post card to each of our customers in this area. The reply cards ask for comments about service and about company practices and policies.

This is not a survey but an attempt to locate and correct telephone service difficulties. We're not looking for compliments. Our objective is to provide an efficient and pleasing service for everyone.

Here's how the post card plan works: Returned cards are analyzed, and every person with a complaint is contacted by a company representative. The trouble is then remedied, or if an explanation is in order, an attempt is made to clear up the problem to the customer's satisfaction. So if you are experiencing any telephone difficulties, please let us hear from you.

Bell Chime -- calls you to your phone in any one of three ways: with a loud bell, a soft bell or a melodic chime.

There are lots of others, too. And, each of them is easy to order. Just call the Telephone Business Office or ask any telephone serviceman. You'll find homewide telephone conveniences will not only beautify your home, but make your living easier all year long.

TV BIRTHDAY

Just 35 years ago, April 7, 1927, an epoch-making experiment was completed.

By means of special equipment developed by Bell Telephone Laboratory scientists, an image of Secretary of Commerce Herbert Hoover was flashed from Washington D. C., to New York. Television was born. And another Bell Labs' project passed a crucial research test.

Today, as the search for new knowledge continues, Bell Labs' pioneering is also reflected in other communications services and techniques.

The transistor, the Bell Solar Battery and Direct Distance Dialing are only three of the revolutionary advances of recent years.

Continuing research keeps bringing forth new services and devices that help the telephone serve you better. Our responsibility is to make it always more dependable and useful to more and more people.

Call by number. It's twice as fast.

Murray-Go-Round

By Tom Murray

Ever been asked your grestest thrill in sports? That's a large order, so let's try a single sport, say track and field.

We'll trade ours for ours. Two most spectacularly gratifying events were Bobby Morrow's devastation of the then peerless Dave Sime at the 1956 NCAA meet and Wally Wilson's dash under duress to bring Baytown's Robert E. Lee Ganders the state championship a a world's mile -relay record in 1955.

The nation's press had called Sime the world's fastest human and asked, "Who's Morrow and where's Abilene Christian?" Morrow, to the everlasting shock of the yankees beat the New York born Sime so decisively in the 100 and led so far in the 220, they're still talking about Dave's 'horrible pulled muscle.'

Wilson, who later helped the University of Texas set the existing would collegiate 440 and mile - relay records, broke the track adage which says you do not pass on a curve and win a relay race.

His belated charge is Baytown legend. It ranks with the gallops of George Walmsley and the smashes of Tom Stolhandske in Ganderland.

It was the final event of a gruelling two - days in which the wonderfully talented, but numbershy Ganders, had battled for a state championship. Beverly Rockhold's lads faced a rested North Side (Fort Worth) mile - relay team which had by far the best preliminary time.

The winner would take the state championship.

Anton Smajstrla, Joe Frank Robbins and Vic Davis gave the deadtired Wilson a five - yard lead which he held until midway down the backstretch. But there North Side Anchor - man Billy Gault roared from behind, cut in too sharply and elbowed him completly off the track, onto the infield.

Wally, stumbling almost to his knees, leaped back over the curb and took off. He was, however, 30 feet behind and apparently out of it.

From somewhere he called on a remarkable reserve, for he not only caught the fleeing Gault but passed him on the curve and won by 20 feet, going away.

As we've written before, it was one of the few times we've ever heard neutral sports writers pull for one participant over another.

It is, however, as American as the hamburger to lend support to gallantry.

ITEMS, HERE AND THERE:

Did you know that Texas' Tom Belcher, second winningest Southwest Conference pitcher of all time, has a devoted fan in Texas Press Association Chief Vern Sanford? Vern and Bechard's Papa are lifelong friends from Oklahoma rearing ..... Bill Van Fleet, Fort Worth Star Telegram sports ed, said Charlie Metro, Chicago Cub coach, knew he was back in Houston when a familiar female voice drilled his consciousness "Metro, you are a bum!" Charlie brought the Denver team into Busch Stadium last summr.

Arkansas, that seething fortress of Ozark football, may have the best tackles in the Southwest Conference in Jerry Mazzanti, Danny Brabham, Dave Adams, and Wesley Bryant ..... Counting Bert Coan, the Kansas team which demoralized Rice in the Bluebonnet Bowl, had eight graduates sign professional football contracts ..... Paul Richards says Bobby Shantz, Houston pitcher, is the best fielding flinger he ever saw ..... If you think Rice has no football talent, take the case of Ben Hollingsstate quarterback from Arlington couple years ago. He's not even listed on the three-deep!

Bill Kennedy, South Texas newspaper publicher, has the Aggies stirred with some biting columns and the letters are pouring in ..... Talk about flashes in the pen. Anybody recall the name of the New York writer who touched off the SWC officiating scandal

Cameron Welcomes Cen-Tex Legion, Smiley Burnette and Broiler Growers

Cameron welcomes three developments of interest this week in the Milam County Seat.

-- The visit of Smiley Burnette for the kids of Cameron and Milam County.

-- The first Cameron meeting of the Spring Convention of the 11th District American Legion.

-- The annual Broiler Show, always rated one of the top shows of its kind in Texas.

Thousands of people will be in Cameron during the four - day period beginning with Smiley's visit Thursday. The Broiler Show is scheduled Saturday and is annually climaxed by a Dinner honoring sponsors and contestants. And the Legion Convention will begin Saturday evening and continue Sunday at National Guard Armory.

The Herald wishes to join its welcome with the people of Cameron who host the three events.

And dozens of people and hundreds of sponsors are making possible the Burnette Show and the Broiler Contest, arranged through the Cameron Chamber of Commerce. Their efforts and contributions will make it a busy weekend for Cameron.

Officials of the Cameron American Legion Post, Edwin Hardy Post No. 9, are making possible the first District Legion Convention in modern city history. Hundreds of Legion members and their wives will be in town for the event.

Kids by the hundreds, will be able to see Gene Autrey's sidekick in three shows at the Milam Courthouse Square.

A lot of planning, work and drive will gain a couple more notches for Cameron's community enthusiasm and pride with successful completion of these events.

It's a sense of pride we gladly share.

Editor
The Cameron Herald
Cameron, Texas

As one of your subscribers and as one of the wives left in this town when the 49th Armored Division was called up, I have been anxiously waiting for any and all news concerning their release from active duty.

Even though a definite date for their release has not been set, I think your lack of interest in this weeks edition is most disappointing and disgusting. Almost every paper in surrounding towns which have men or a Company of men in the 49th Division at Fort Polk, had an article in their paper about their upcoming release in August.

I hope sincerely that your lack of interest doesn't carry the opinion of the whole town in the return of so many of our husbands, fathers and other relatives and friends.

Whether or not you and your paper care about their return makes no difference to me, but, you could consider the morale of the men who are about to return to the town that didn't care enough to give them a proper sendoff.

The least you and your paper can do is to welcome them home.

Yours truly,
A wife of one of the men
of the 49th Armored Div.

ED'S NOTE -- As a matter of fact, The Herald mentioned in an April 19th editorial: Things Look Up For Milam", the following:

"Milam's National Guard unit, along with the 49th National Guard Division is due for release from active duty sometime in August, according to wire reports."

As for our "lack of concern," I think The Herald's staffer, James Hollas, would be more qualified to answer that. He is in the Milam unit.

If this letter did not involve such an important subject, the Guard Unit from Milam County, we would not publish it unsigned. We hope everyone feels better when the boys do get home sometime in August.

Texans Set To Cast Ballots

By Vern Sanford

AUSTIN — Next week some 2,500,000 Texans will make up their minds whom to cast their ballots for among a huge list of candidates for local, district, state and Federal offices.

Prime interest is in the governor's race, where five democrats and two republicans are hoping to replace Gov. Price Daniel. The governor is working hard to see that they don't.

Down the list, to the office of precinct chairman, there are more candidates than in many years. This is due primarily to the "open race" for the major state offices ... namely those of attorney general and lieutenant governor. These openings have allowed those down the line to try to move up while at the same time leaving lesser offices open.

Also on May 5, the two parties will hold precinct conventions. They will name delegates to county conventions. County delegates, in turn, will name delegates to state conventions to be held in September. This is where party platforms will be written.

Big side bar issues on May 5 will be the referendums on horse race betting and poll tax repeal. These will appear on both the republican and the democratic ballots.

Also on the GOP ballot is the question whether Padre Island should be developed as a state park. Results of the balloting on these referendums are not binding. But they provide a public opinion poll and legislators are likely to follow the mandates set out by the votes.

DANIEL BACKS IMPORTS LIMIT

Governor Daniel sent telegrams to the governors of the other 31 oil - producing states, and asked them to join him in supporting an oil imports limitation amendment. U. S. Congressman Tom Steed of Oklahoma introduced the proposal. It would require oil imports to be cut to the 1956 ratio with U. S. production.

At the 1957 Governor's Conference, Daniel was successful in getting 32 gubernatorial signatures on a petition to Pres. Dwight D. Eisenhower, urging mandatory import controls. But he feels that nothing has been done to prevent imports from supplanting domestic production.

Daniel said that the recent schedule of eight - day allowables in Texas has resulted in a loss of more than $100,000,000 in tax revenue for the State. May will be another eight day producing month.

AGRICULTURAL WAR ON

About 40,000 bushels of sweet potatoes worth $100,000 are in danger of being ruined by the sweet potato weevil, according to State Agriculture Commissioner John C. White. Some 1,200 growers in 10 counties plan to join the state in a two - month battle against the pest.

About $15,000 will be spent to dust sweet potato crops and some 100 storage houses in Anderson, Cherokee, Houston, Leon, Madison, Nacogdoches, Rusk, San Augustine, Shelby and Trinity counties.

White says the war against the Kaphra beetle, which devours grain has been won at a cost of $100,000 But every precaution is being taken to prevent another invasion from out of - state.

On the positive side of the planting problems, the agriculture commissioner said South Texas cotton farmers have been given a 10-day extention - to midnight April 30 -- to plant, or replant where seeds failed to germinate because of unusually dry weather.

NO SECRETS ALLOWED IN SCHOOLS

A Texas law that says that public school authorities can suspend or expel a student who solicits members for a fraternity, or other secret society, also prohibits other organizations from doing so. Attorney General Will Wilson has so ruled.

The law allows the formation in schools of Boy Scouts, Hi-Y, Girl Scouts, DeMolay, Rainbow Girls, Pan - American clubs, Scholarship socieities and other "kindred education organizations sponsored by state or national education authorities."

But any "public welfare" group which isn't on the list of specifics is forbidden.

THE OLD PHILOSOPHER

Philosopher Can't Figure Out Advantages Of New Plan To Finance The Candidates

Dear editar:

According to an article I read last night, the farmers aren't the only people suffering from the high cost of operating. High costs have now hit politics.

As I understand it, the cost of running for office has gotten so hi h that there is a move on for financial relief to candidates. It just costs too much to wage a national campaign, not to mention a state or even local one.

I can see the country can't afford to have a lot of public offices un - filled because it costs too much to run for them, although I for one have been unable to detect any shortages along this line. As far as I can determine, every public office we've got is filled and there's always a good many defeated candidates left over and willing to try again next time.

At any rate, a commission in Washington has been studying this situation and has come up with the suggestion that more prople ought to contribute to campaigns, to ease the burden on the candidates, and the commission has suggested that people be allowed to deduct a part of their campaign contributions from their income tax

For instance, it suggested, if you contributed $25 to a campaign, you could take $10 off your income tax.

Now I have thought this matter over and, while I have a great deal of sympathy for candidates and believe it'd be an unwholesome situation if we ever got to the point where only a wealthy man could afford to run for office, still, looking at it from the voter's standpoint, we've got high costs starting us in the face too and spending $25 on a candidate in order to save $10 on your income tax, ain't exactly the way to balance your personal budget. The way I figure it, you're still out $15, and maybe even more, if the candidate gets elected and raises your government expenses by $10.

As I see it, the situation is envolved. The candidates are asking the public for financial relief in running, and then after they get elected the public needs financial relief from what happens after they get there.

This makes the farm problem look simple.

Yours faithfully,
J. A.

TSL Traveling Books Important

AUSTIN — Texas State Library's "Traveling Exhibit of Children's Books" is a little known free service of the library -- yet it is very important and informative, Dr. Dorman H. Winfrey, director and librarian, remarked.

The State Traveling Exhibit of Children's Books, sponsored by the American Library Association and Children's Book Council, Inc., joint committee, is a program under copies of new children's books to participating state libraries, who in turn make them available for exhibit by any responsible organization in the state.

Books sent by the joint committee are available to Parent-Teacher Associations, women's clubs, civic clubs, Friends of Libraries, book fairs, school administrators and their staff, public libraries, educational meetings, teachers colleges and university workshops and to others interested in promoting library development, Dr. Winfrey pointed out.

Last year State Library received more than 940 exhibit books having a value of excess of $3,200. After one year of exhibition the books became the property of the State and are sent to small libraries throughout the State on a loan basis.

WHAT IS JUSTICE—THE LAWS OF MANY OR OF A FEW?

Americans believe:

That the accepted standards of justice are the laws which have been formulated through hundreds of years of man's struggle to find a livable code. They find expression in the law of the land and in our great heritage of common law. These laws are clearly promulgated. Judges in our system are sworn to live up to this law and not to impose their own arbitrary standards of judgment. Thus, we are a government of law and not a government of men.

Communists believe:

That the proper and final test of right and wrong is "does it serve the ultimate Communist purpose?" — if it does, it is good; if it does not, it is bad. With this cornerstone of Soviet justice, if any law exists that interferes with the Soviet goal, it is conveniently by-passed. Arbitrary decisions by Communist superiors overrule the law. Rule of man satisfies the Communist need, not rule of law.

ETERNAL VIGILANCE IS THE PRICE OF LIBERTY

To renew and awaken interest in our precious heritage of Freedom, and its superiority over the Communist philosophy, these messages are being published by the Texas Power & Light Company, an investor-owned, tax-paying electric utility.

SS Trust Fund Exceeds Outgo

Income to the two social security trust funds exceeded outgo by $409 million dollars during the fiscal year 1961, according to the 22nd annual report, sent to Congress recently by the trustees of the funds.

Durelle L. Allen, district manager of the Temple Social Security Office, said today that the official figures given in the trustees' report show that income to the two funds during the rest of this decade and on into the long range future will be sufficient to cover all outlays for benefits.

Income to the old - age and survivors insurance trust fund during the past fiscal year amounted to $11,814 million, including $522 million interest on invested assets. Total disbursements for the year were $11,743 million. At the end of June 1961, the fund stood at $20.9 billion.

Total income to the disability insurance trust fund during the fiscal year 1961 came to $1,082 million, including $60 million in interest on investments. Disbursements were $745 million and the assets of the fund at the end of the fiscal year totalled $2,504 million.

The three trustees of the funds--the Secretary of Treasurer, the Secretary of Labor and the Secretary of Health, Education and Welfare -- are required by law to make a report to Congress each year on the operations and status of the funds during the previous fiscal year and on their expected operations and status for many years into the future.

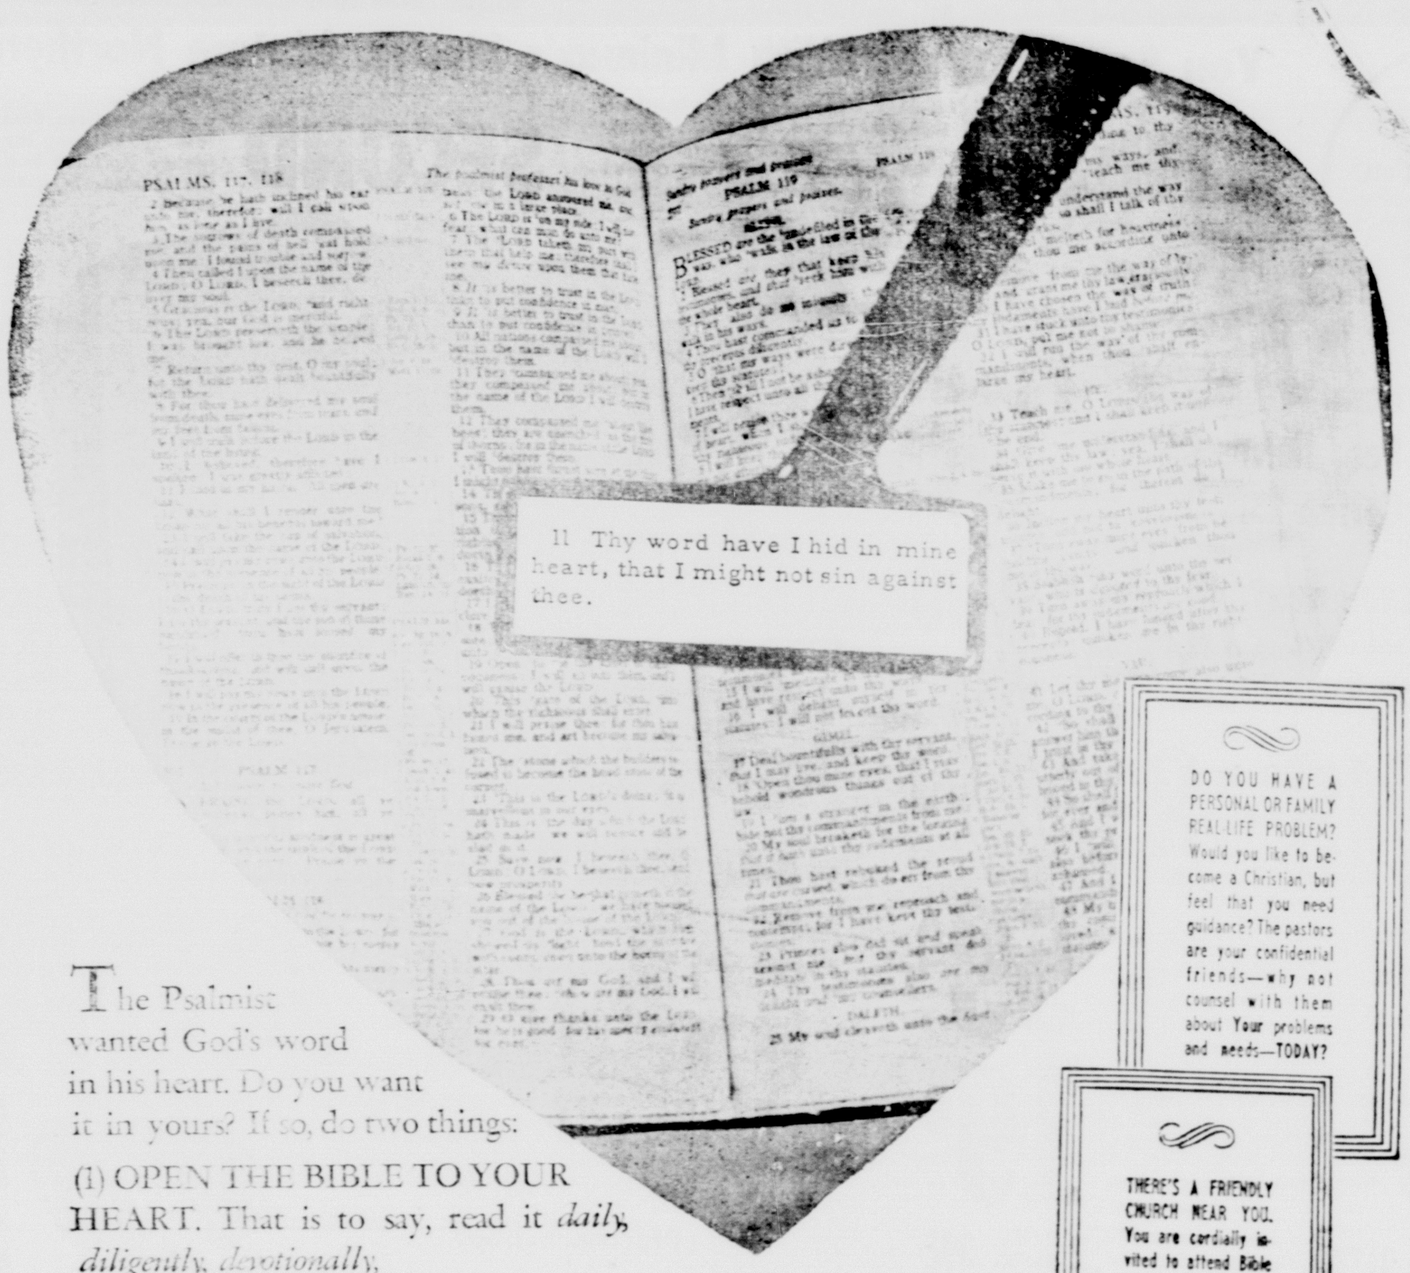
Is the Bible in Your Heart?



PSALMS 119, 118
PSALM 119
Daily prayers and praises.
BLESSED are the undefiled in the way, who walk in the law of the
11 Thy word have I hid in mine heart, that I might not sin against thee.

The Psalmist wanted God's word in his heart. Do you want it in yours? If so, do two things:

(1) OPEN THE BIBLE TO YOUR HEART. That is to say, read it *daily, diligently, devotionally,*

(2) OPEN YOUR HEART TO THE BIBLE— and that means, believe it, *truly;* receive it, *sincerely;* follow it, *humbly.* It will transform you.

At church on the Lord's day, and at other times, you will find other people, young and old, who, too, are anxious that the Bible, God's Holy Word, shall be "hid in their hearts" that it may be the guide for their lives. Thus you will find fellowship to inspire you to constant noble Living and service to humanity in the name of the Lord.

DO YOU HAVE A PERSONAL OR FAMILY REAL-LIFE PROBLEM? Would you like to become a Christian, but feel that you need guidance? The pastors are your confidential friends—why not counsel with them about Your problems and needs—TODAY?

THERE'S A FRIENDLY CHURCH NEAR YOU. You are cordially invited to attend Bible studies, Worship Services, Business and Social Hours. Make your life complete by finding a church home. Do it now!
